Contents

Volumn 150 Number 1 April 2001

CONTENTS

Forum

Commentary

1 Why don't mosses flower? • Plant responses to UV-B: time to look beyond stratospheric ozone depletion?

Letters

9 Capillary and sap ascent in a resurrection plant: does theory fit the facts?

Meetings

11 Signalling: no plant is an island

Books

18 Life everywhere • Liverworts: the definitive flora • Plasmid drawing software

Research

23 Ancestry of *KNOX* genes revealed by byrophyte (*Physcomitrella patens*) homologs
C. E. M. Champagne & N. W. Ashton
• **Commentary p. 1**

37 Can unidirectional influx be measured in higher plants? A mathematical approach using parameters from efflux analysis
D. T. Britto & H. J. Kronzucker

49 Developmental and induced responses of nickel-based and organic defences of the nickel-hyperaccumulating shrub, *Psychotria douarrei*
M. A. Davis, S. G. Pritchard, R. S. Boyd & S. A. Prior

59 Uptake of glycine by field grown wheat
T. Näsholm, K. Huss-Danell & P. Hogberg

65 Manipulation of fruit sugar composition but not content in *Lycopersicon esculentum* fruit by introgression of an acid invertase gene from *L. pimpinellifolium*
S. E. Husain, C. James, R. Shields & C. H. Foyer

73 Invertase protein, but not activity, is present throughout development of *Lycopersicon esculentum* and *L. pimpinellifolium* fruit
S. E. Husain, B. J. Thomas, A. H. Kingston-Smith & C. H. Foyer

83 Structure of fructans in roots and leaf tissues of *Lolium perenne*
N. Pavis, N. J. Chatterton, P. A. Harrison, S. Baumgartner, W. Praznik, J. Boucaud & M. P. Prud'homme

97 Fructans and fructan-metabolizing enzymes in leaves of *Lolium perenne*
N. Pavis, J. Boucaud & M. P. Prud'homme

111 Intracellular calcium oxalate crystal structure in *Dracaena sanderiana*
S. V. Pennisi, D. B. McConnell, L. B. Gower, M. E. Kane & T. Lucansky

121 Secondary metabolites and nutrient concentrations in silver birch seedlings under five levels of daily UV-B exposure and two relative nutrient addition rates
T. M. de la Rosa, R. Julkunen-Tiitto, T. Lehto & P. J. Aphalo
• **Commentary p. 5**

133 Comparative study of two spruce species in a polluted mountainous region
J. Soukupová, B. N. Rock & J. Albrechtová

147 Growth response of Mountain birch to air and soil temperature: is increasing leaf-nitrogen content an acclimation to lower air temperature?
M. Weih & P. S. Karlsson

157 Field measurements of root respiration and total soil respiration in an alder forest
W. L. Kutsch, A. Staack, J. Wötzel, U. Middelhoff & L. Kappen

169 Soil-borne pathogens: scaling-up from hyphal to colony behaviour and the probability of disease transmission
A. J. Stacey, J. E. Truscott & C. A. Gilligan

179 Nutrient economy of red pine is affected by interactions between *Pisolithus tinctorius* and other forest-floor microbes
R. T. Koide & Z. Kabir

189 Simultaneous, bidirectional translocation of ^{32}P and ^{33}P between wood blocks connected by mycelial cords of *Hypholoma fasciculare*
B. Lindahl, R. Finlay & S. Olsson

195 Longevity of mycorrhizal roots depends on branching order and nutrient availability
H. Majdi, E. Damm & J.-E. Nylund

203 Ectomycorrhizal protection of *Pinus sylvestris* against copper toxicity
K. K. Van Tichelen, J. V. Colpaert & J. Vangronsveld

Volumn 150 Number 2 May 2001

Commentary

215 Rising CO_2 – future ecosystems

Research

223 Growth and nitrogen uptake of CO_2-enriched rice under field conditions
H. Y. Kim, M. Lieffering, S. Miura, K. Kobayashi & M. Okada

231 Effect of free-air CO_2 enrichment (FACE) on CO_2 exchange at the flood-water surface in a rice paddy field
H. Koizumi, T. Kibe, S. Mariko, T. Ohtsuka, T. Nakadai, W. Mo, H. Toda, N. Seiichi & K. Kobayashi

241 Rice carbon balance under elevated CO_2
H. Sakai, K. Yagi, K. Kobayashi & S. Kawashima

251 Free-air CO_2 enrichment (FACE) using pure CO_2 injection: system description
M. Okada, M. Lieffering, H. Nakamura, M. Yoshimoto, H. Y. Kim & K. Kobayashi

261 Elevated CO_2 increases sorghum biomass under drought conditions
M. J. Ottman, B. A. Kimball, P. J. Pinter, G. W. Wall, R. L. Vanderlip, S. W. Leavitt, R. L. LaMorte, A. D. Matthias & T. J. Brooks

275 Reduced photorespiration and increased energy-use efficiency in young CO_2-enriched sorghum leaves
A. B. Cousins, N. R. Adam, G. W. Wall, B. A. Kimball, P. J. Pinter Jr., S. W. Leavitt, R. L. LaMorte, A. D. Matthias, M. J. Ottman, T. L. Thompson & A. N. Webber

285 Carbon isotope discrimination by *Sorghum bicolor* under CO_2 enrichment and drought
D. G. Williams, V. Gempko, A. Fravolini, S. W. Leavitt, G. W. Wall, P. J. Kimball, P. J. Pinter Jr, R. Lamorte & M. Ottman

295 Elevated CO_2, drought and soil nitrogen effects on wheat grain quality
B. A. Kimball, C. F. Morris, P. J. Pinter Jr., G. W. Wall, D. J. Hunsaker, F. J. Adamsen, R. L. LaMorte, S. W. Leavitt, T. L Thompson, A. D. Matthias & T. J. Brooks

305 Stable-carbon isotopes and soil organic carbon in wheat under CO_2 enrichment
S. W. Leavitt, E. Pendall, E. A. Paul, T. Brooks, B. A. Kimball, P. J. Pinter Jr, H. B. Johnson, A. Matthias, G. W. Wall & R. L. LaMorte

315 Modelling a spring wheat crop under elevated CO_2 and drought
S. Grossman-Clarke, P. J. Pinter Jr, T. Kartschall, B. A. Kimball, D. J. Hunsaker, G. W. Wall, R. L. Garcia & R. L. LaMorte

337 Modelling the response of wheat canopy assimilation to atmospheric CO_2 concentrations
D. Rodriguez, F. Ewert, J. Goudriaan, R. Manderscheid, S. Burkart & H. J. Weigel

347 Nitrogen fertilization and developmental stage alter the response of *Lolium perenne* to elevated CO_2
M. Daepp, J. Nösberger & A. Lüscher

359 Seedling performance of pasture species under elevated CO_2
G. R. Edwards, P. C. D. Newton, J. C. Tilbrook & H. Clark

371 Productivity of *Trifolium subterraneum* and *Phalaris aquatica* under warmer, high CO_2 conditions
J. M. Lilley, T. P. Bolger & R. M. Gifford

385 Nutritive value and the nitrogen dynamics of *Trifolium subterraneum* and *Phalaris aquatica* under warmer, high CO_2 conditions
J. M. Lilley, T. P. Bolger, M. B. Peoples & R. M. Gifford

397 Elevated CO_2 and nitrogen supply alter leaf longevity of grassland species
J. M. Craine & P. B. Reich

405 Leaf gas exchange responses of 13 prairie grassland species to elevated CO_2 and increased nitrogen supply
T. D. Lee, M. G. Tjoelker, D. S. Ellsworth & P. B. Reich

419 Direct inhibition of leaf dark respiration by elevated CO_2 is minor in 12 grassland species
M. G. Tjoelker, J. Oleksyn, T. D. Lee & P. B. Reich

425 Grassland species effects on soil CO_2 flux track the effects of elevated CO_2 and nitrogen
J. M. Craine, D. A. Wedin & P. B. Reich

435 Do species and functional groups differ in acquisition and use of C, N and water under varying atmospheric CO_2 and N availability regimes? A field test with 16 grassland species
P. B. Reich, D. Tilman, J. Craine, D. Ellsworth, M. G. Tjoelker, J. Knops, D. Wedin, S. Naeem, D. Bahauddin, J. Goth, W. Bengston & T. D. Lee

449 Leaf conductance decreased under free-air CO_2 enrichment (FACE) for three perennials in the Nevada desert
R. S. Nowak, L. A. DeFalco, C. S. Wilcox, D. N. Jordan, J. S. Coleman, J. R. Seemann & S. D. Smith

459 Limited effect of increased atmospheric CO_2 concentration on ombrotrophic bog vegetation
M. R. Hoosbeek, N. van Breemen, F. Berendse, P. Grosvernier, H. Vasander & B. Wallén

465 Free-air CO_2 enrichment (FACE) of a poplar plantation: the POPFACE fumigation system
F. Miglietta, A. Peressotti, F. Primo Vaccari, A. Zaldei, P. deAngelis & G. Scarascia-Mugnozza

477 Allometric determination of tree growth in a CO_2-enriched sweetgum stand
R. J. Norby, D. E. Todd, J. Fults & D. W. Johnson

489 Sap velocity and canopy transpiration in a sweetgum stand exposed to free-air CO_2 enrichment (FACE)
S. D. Wullschleger & R. J. Norby

Volumn 150 Number 3 June 2001

CONTENTS

Forum

Commentary

499 Frontiers in molecular mycorrhizal research – genes, loci, dots and spins • Variability of inorganic nutrient concentrations in leaves

Letters

508 Intrusive growth – the plant analog of dendrite and axon growth in animals

Books

513 Microscopy techniques • The facts of photosynthesis – an accessible resource • Surveying the plant kingdom • Biopesticides

Review

Research reviews

517 Analysis of gene expression in arbuscular mycorrhizas: new approaches and challenges
P. Franken & N. Requena

525 Analysis of arbuscular mycorrhizas using symbiosis-defective plant mutants
J. F. Marsh & M. Schultze
533 Carbohydrate metabolism in ectomycorrhizas: gene expression, monosaccharide transport and metabolic control
U. Nehls, S. Mikolajewski, E. Magel & R. Hampp
543 Exploring mycorrhizal function with NMR spectroscopy
P. E. Pfeffer, B. Bago & Y. Shachar-Hill
555 Community ecology of ectomycorrhizal fungi: an advancing interdisciplinary field
A. Dahlberg

Research

563 Mycorrhizal development in a low nodulating pea mutant
C. M. Resendes, R. D. Geil & F. C. Guinel
573 Arbuscular mycorrhizas in mini-mycorrhizotrons: first contact of *Medicago truncatula* roots with *Glomus intraradices* induces chalcone synthase
A. Bonanomi, J. H. Oetiker, R. Guggenheim, T. Boller, A. Wiemken & R. Vögeli-Lange
583 Differential expression of the hexose-regulated fungal genes *AmPAL* and *AmMst1* within *Amanita/Populus* ectomycorrhizas
U. Nehls, A. Bock, M. Ecke & R. Hampp
591 Are ectomycorrhizas more abundant than arbuscular mycorrhizas in tropical heath forests?
B. Moyersoen, P. Becker & I. J. Alexander
601 Mycorrhizal vs saprotrophic status of fungi: the isotopic evidence
E. A. Hobbie, N. S. Weber & J. M. Trappe
611 Species-specific responses of a root- and shoot-feeding insect to arbuscular mycorrhizal colonization of its host plant
A. C. Gange

619 Influence of coumarin on the net nitrate uptake in durum wheat
M. R. Abenavoli, C. De Santis, M. Sidari, A. Sorgonà, M. Badiani & G. Cacco
629 Patterns made of patterns: variation and covariation of leaf nutrient concentrations within and between populations of *Prunus mahaleb*
C. Alonso & C. M. Herrera
• **Commentary p. 506**

641 Variation in nitrogen-use efficiency among and within subarctic graminoids and herbs
R. L. Eckstein & P. S. Karlsson
653 Radiation modifies the effect of water availability on the carbon isotope composition of beech (*Fagus sylvatica*)
A. Gessler, S. Schrempp, A. Matzarakis, H. Mayer, H. Rennenberg & M. A. Adams
665 Stomatal density and needle anatomy of Scots pine (*Pinus sylvestris*) are affected by elevated CO_2
J. Lin, M. E. Jach & R. Ceulemans
675 Gender-specific responses of *Populus tremuloides* to atmospheric CO_2 enrichment
X. Z. Wang & P. S. Curtis
685 Estimating age-dependent costs and benefits of roots with contrasting life span: comparing apples and oranges
T. J. Bouma, R. D. Yanai, A. Elkin, U. Hartmond, D. Flores-Alva & D. M. Eissenstat

697 Interpretation of bioassays in the study of interactions between soil organisms and plants: involvement of nutrient factors
S. R. Troelstra, R. Wagenaar, W. Smant & B. A. M. Peters
707 Novel infection process in the indeterminate root nodule symbiosis between *Chamaecytisus proliferus* (tagasaste) and *Bradyrhizobium* sp.
M. C. Vega-Hernández, R. Pérez-Galdona, F. B. Dazzo, A. Jarabo-Lorenzo, M. C. Alfayete & M. León-Barrios
723 Flooding-tolerant legume symbioses from the Brazilian Pantanal
E. K. James, M. de Fatima Loureiro, A. Pott, V. J. Pott, C. M. Martins, A. A. Franco & J. I. Sprent
739 Immunocytochemical location of the (1→3) (1→4)-β-glucan lichenin in the lichen-forming ascomycete *Cetraria islandica* (Icelandic moss)
R. Honegger & A. Haisch
747 Isolation and phylogenetic identification of a dark-septate fungus associated with the alpine plant *Ranunculus adoneus*
C. W. Schadt, R. B. Mullen & S. K. Schmidt

757 Physiological responses of *Catharanthus roseus* (periwinkle) to ash yellows phytoplasmal infection
P. Y. Tan & T. Whitlow
